

# **nanoCut**

ophthalmic surgical blades

AuroLab, with its expertise and experience in ophthalmic consumables, now brings you its range of high end ophthalmic surgical blades — NANOCUT. Nanocut is manufactured from high grade raw material using advanced technology for precise shaping of metal products.

The excellence in manufacturing, displayed in Nanocut, gives surgeons a superior feel while making incisions and entry procedures. It comes with an anti-glare surface that makes it easy to use during surgery. It also has laser depth markings in Clear cornea blades.

Nanocut blades are ETO sterilized and supplied with autoclaveable polycarbonate handles and cradle. Nanocut blades come as a pack of six units.
