

# AUROSIL 1500

(Silicone oil 1500 cSt)

- The choice of viscosity that offers an optimum balance between easy injection and stable long term tamponade
- It offers a dynamic viscosity and its stable intermolecular forces resist early emulsification
- Chemically and Physiologically inert homogeneous liquid
- Low level of reactive -OH end groups minimise the risk of interaction with ocular environment
- Manufactured under cGMP environment, assure product safety and performance
